Brief description of the Assignment	<p>Contraband yaba tablets are increasingly getting popular among young people nowadays in different parts of the world, including Bangladesh. This country is being used as a transit point for trafficking the tablets involving many southeast Asian markets. In fact, our beloved country is touted to be a safe route for yaba drug dealers. Most of these pills come from neighboring Myanmar, India and even from distant Laos. The yaba tablets are smuggled into Bangladesh using the vast bordering areas, waterways and airways</p> <p>International gangs and local smuggler employ a large number of women, students and even teens are also involved in selling the contraband drug, which is often considered as a powerful stimulant.</p> <p>The youth population is becoming highly addicted to it due to wider-open availability of this 'sexually arousing' pill. Consequently, they are falling prey to serious physical and psychological health hazards. They are also becoming prone to various complex diseases like kidney and liver infection, sleeping problems and lower back pain, among others.</p>

	<p>Yaba tablets, indeed, are increasingly posing a great threat to the valuable lives of our young generation. They are being completely exploited and manipulated by this item. To save our young generation and our future leaders from getting ruined, the government intend to conduct a study <i>to find out the causes and consequences of Yaba addicted.</i></p> <p>Name of the Study:“Underlying causes and consequence of young people are getting more involve in Yaba Addiction in Bangladesh”</p> <p>Overall Objective: To find out the underlying causes and consequences of Yaba Addicted among young generation in Bangladesh.</p> <p>Specific Objectives:</p> <ul style="list-style-type: none"> ▪ Socio-demographic information of the Yaba addicted ▪ Know the underlying cause to get involve in Yaba; ▪ Find out the health consequence of the drug users; ▪ Understand the financial consequence of young Yaba addicted; ▪ Know the study consequence of of young Yaba addicted; ▪ Find out family and social consequence of the drug users; ▪ Provide recommendation how Yaba addicted off from drug and who are most vulnerable to get involve in Yaba
